①

To: CASEY Personnel,

We, Wenceslao & Cibeles González, the parents of Wenceslao Adonis González III and Galileo Basilio González, are writing this letter in order to demand that our religious rights be respected. This letter is being written by hand due to the fact that our printer ceased to function several months ago, and that we did not have sufficient time to print a typed letter elsewhere. Of course, we know that your agency views human rights as a jest, and that you constantly adhere to the erroneous view of "might makes right," as well as "might allows us to take flight." This is why an agency which has helped DCYF and Ana so blatantly violate the law, and which has so savagely destroyed our family, is now suddenly closing their offices in New England by December 31st 2012. Thus, the abuses which your agency colluded with DCYF in implementing, and certain individuals such as the former CASEY worker Mr. Robert (Bob) Ehrhardt (who left your agency in December of 2011) would feel protected, and out of reach, should there be an investigation into several concealed activities of your agency in relation

to our case. We know that your daily unlawful activities are constantly accompanied by the immense disdain which you continuously feel for those whom you arrogantly victimize. However, despite the wide gap of inequality which exists between your ability to victimize and our ability to effectively defend ourselves, we will seek (however petty our efforts might seem) to assert whenever possible those rights to which we are entitled.

Among those rights is the right of freedom of religion, and to not have our children taught things contrary to their parents' religious beliefs. When our sons were born, we, their parents, had made the agreement that they would be raised Jewish. That is the only religion that they were exposed to prior to their abduction in a foreign country.

Therefore, since we know that the odious festivity of Halloween is upon us, we are deeply concerned, and indeed horrified at the tragic prospect of our beloved sons participating in any way in the celebration of this pagan anti-Biblical festival.

③

Therefore, we demand with all the passion that our convictions can muster, that our sons not celebrate in any way the odious festival of Halloween. We ask that their teachers be notified of this demand, as well as the woman said to be their foster mother called Arieles (we were never told her last name).

If our rational demand is intentionally ignored, that would be sufficient evidence of the violation of our religious rights, for you simply cannot feign ignorance of how we feel with regard to this matter.

Though many an inevitable pompous smirk will manifest itself as you read these words, we should remind you that though you may ridicule our beliefs, and erroneously think that those beliefs are "not based on reality", the Constitutional laws which protect the right to uphold those beliefs are a reality. We therefore will endeavor to appreciate any honest effort made to cooperate with our reasonable demands.

Sincerely, X Citalos Duff

X Wenceslas Gonzalez
